MENT 3235 Assignment Guide

Start here

Use this page to find the correct task and submission route. Keep all current HuskyCT deadlines; the dates below are navigation aids, not replacement cutoff times.

Task	Who / what	Where	Requirements
Pre-class comment	Each student; 50–100 words	Existing HuskyCT comment space	Position, evidence or a labeled example, and one question. Read the module's short guide first; full blog is optional depth.
Simulation reflection	Each student; 300–500 word target from October 20	Existing HuskyCT reflection assignment	Five headings, rubric, and feedback. Prior 500–800 word guidance remains acceptable.
Midterm	Team; report PDF and 15-minute pitch video	Blackboard report/video assignments; contribution summaries in SkillSimm	Canonical midterm instructions and rubrics.
Final	Same team; revised report PDF and 15-minute pitch video	Blackboard report/video assignments; contribution summaries in SkillSimm	Canonical final instructions and rubrics.

Course weights

Component	Course weight
Blog comments	10%
Simulation reflections	40%
In-class participation	10%
Midterm report and pitch	20%
Final report and pitch	20%
Total	**100%**

Individual work totals 60%; team work totals 40%. Each project has a 100-point report and a 100-point video, contributing 10% of the course each. The listed up-to-5-point bonus applies to the report.

Existing reflection schedule

Date	Topic / case
September 10	Marketing research / TheRealReal
September 17	Operations / Affirm
September 24	Intellectual property / Apple v. OpenAI
October 1	Legal structure / NYT v. Microsoft & OpenAI
October 22	Market deployment / Tesla
October 29	Competition / Cerebras
November 5	Pricing / Snowflake
November 12	Budgeting / Marvell

The exact current cutoff remains the one shown in each HuskyCT assignment. Midterm submission remains October 13. Preserve the December 8 pitch milestone and December 15 final report/video submission; consult the existing assignment for the required version at each milestone.

Submission checklist

- Use headings matching the assignment; cite sources beside the claims they support.
- Include student/team names; upload a readable .docx or .pdf for written reflections and a PDF for project reports.
- For videos, use the existing upload/link field and confirm playback permissions.
- Open the uploaded file and confirm the assignment shows submitted.
- Save your decision record and contribution notes; use the static packet if SkillSimm is unavailable.

Venture workshops and feedback

Thursday's last 20 minutes produce a small piece of the existing team project, not another separately graded assignment. Teams that finish simulations early can begin the workshop. Feedback names a criterion, a specific strength, and a concrete next revision.
